BARTU **BAZNA**

I am a seasoned software engineer with a proven track record of over four years, distinguished by my robust technical prowess and exceptional interpersonal abilities. My professional identity is characterized by adaptability, competence, and unwavering drive. As a collaborative team player and a dedicated problem-solver, I have successfully contributed to diverse projects as a full stack developer. I am presently seeking new opportunities to leverage my skills, rich experience, and expertise in driving success for prospective endeavors.
